

KÄRCHER HDS 5/15 UX

The HDS 5/15 UX hot water high-pressure cleaner with hose reel and 15 m hose. Very compact, ergonomically sophisticated upright design with exceptional power.

The entry-level model in the class of hot water high-pressure cleaners impresses with its sophisticated and innovative upright design. This type of horizontal machine design results in reduced weight and very compact dimensions. This makes the machine very easy to transport in estate cars and – thanks to the large wheels and push handle – very mobile on uneven surfaces. Highly efficient cleaning performance is guaranteed by the combination of patented nozzle technology, turbo blower, increased pump efficiency and a powerful dirt blaster.

With the EASY!Force high-pressure gun, which makes use of the recoil force of the high-pressure jet to reduce the holding force for the operator to zero, as well as the EASY!Lock quick-release fasteners, which make set-up and dismantling five times faster than with conventional screw connections, the machine is very convenient to use.

Easy operation, storage options for hose and spray lance and a built-in hose reel with 15-metre pressure hose complement the machine's extensive equipment.

Features:

Integrated hose reel

- Secure and convenient storage of the pressure hose.
- Ensures ergonomic operation.
- Reduced set-up times.

Innovative upright design

- Effortless transport over landings or stairs.
- Large wheels for unpaved surfaces.

Water fine filter

- Efficiently protects high-pressure pump against contamination.
- Easy to remove from outside.

Compact design

- Space-saving storage and transport
- Spill-proof pump and fuel tank for flat transport.
- Ideal for small service vehicles.

Save energy and time: EASY!Force high-pressure gun and EASY!Lock quick-release fasteners

- At last – work without getting tired: the EASY!Force high-pressure gun.
- EASY!Lock quick-release fasteners: durable and robust. And five times faster than screws.

Standard Features / Accessories

Exhaust gas thermostat
Fuel shortage protection
Integrated high-pressure hose reel
15 Metre high pressure hose
3-piston axial pump, With stainless steel pistons
EASY!Force trigger gun
840 mm spray lance
Triple nozzle
Pressure cut-off

Part no. 1.064-913.0

TECHNICAL SPECIFICATIONS

Supply voltage	1/230/50 Ph/V/Hz
Flow rate	450 l/h
Working pressure	150/15 bar/MPa
Connection load	2,7 kW
Weight	76 kg
Heating oil or gas consumption, full load	2,4 kg/h
Fuel tank	6,5 l
Dimensions (L x W x H)	620 x 620 x 1160 mm
