

KÄRCHER SGV 6/5

The easy-to-use SGV 6/5 steam vacuum cleaner offers hygienic cleanliness. It is a steam cleaner and wet and dry vacuum cleaner in one. With EASY-Operation switch, secure accessory integration and hand tool for controlling the steam/vacuum function.

Features

User-friendly with EASY Operation

- One turn switch for all functions. Simple and quick handling, with no need for extensive training.
- Self-explanatory symbols make the machine easy to understand and simplify operation.

Convenient function control with the hand tool

- The most important functions, like water/steam regulation and on/off switch for the vacuum function, can easily be adjusted on the hand tool.
- The customer can quickly and flexibly control the functions during application without having to make any extra adjustments on the machine. This saves time and makes application easier.

Accessories – always easily accessible

- The accessories are easily accessible and securely stored. A carrying frame allows the operator to easily remove and clean the nozzle accessories.
- The cord is conveniently integrated on the rear of the machine; this prevents tripping hazards. Pipes, floor nozzle and hose are directly fixed to the machine, guaranteeing easy and secure transport of the machine to the location of use.

Standard Features / Accessories
