

KÄRCHER HD 9/20-4 Classic

The HD 9/20-4 Classic cold water high-pressure cleaner is extremely robust, user friendly and offers a maximum operating pressure of 200 bar at a water flow rate of 900 litres per hour/h. The HD 9/20-4 Classic has been designed for tough daily operating conditions with an air cooled 4-pole electric motor, which operates at 1400 rpm and a powerful and reliable crankshaft pump with ceramic pistons.

Features:

Durable and robust

- Extra-large crankshafts and connecting rods with robust ball bearings.
- Ceramic pistons for reduced wear and tear.
- High performance sealing packages for increased working times.

Very easy to maintain

- Wide-opening machine cover for easy access to all service and maintenance-relevant components.
- Large fine water filter for optimal protection of the pump.
- Integrated nozzle storage.

Greater cleaning performance

- Patented Kärcher power flat jet nozzles: up to 40 percent more collision force than conventional nozzles.
- High area coverage and thorough dirt removal.

First-class mobility

- Large wheels and ergonomic push handle ensure optimal turning and easy handling.
- The foldable push handle enables space-saving storage.

Standard Features / Accessories

10 m High-pressure hose
Trigger gun
600 mm Stainless steel spray lance
Power nozzle 25°

Part no. 1.367-308.0

TECHNICAL SPECIFICATIONS

Current type	3/400/50 Ph/V/Hz
Flow rate	520-900 l/h
Working pressure	70-200 bar/MPa
Max. pressure	240 bar
Max. water inlet temperature	60 °C
Connected load	6,9 kW
Weight	56 kg
Dimensions (L x W x H)	700 x 455 x 1010 mm
